Dear Paul,

Many thanks for the four pages with which you had this note. Dad will explain current added interest as I've explained it to him and shown him what I have to go with.

Are you and Jim satisfied there is no connection with Alina/Arctic Customs?

Spoke to Dad today and asked him to ask them to check for better copies filed under names. I will want to reproduce in appendix. I have the Chipolice record (and they have been altered and his picture removed from them and they include an FBI xsp sheet that is missing in the WC docs we can get).

Many thanks.

When the Archives gets accommodating, they usually waste my meager funds. Instead of the one altered page of the O'Sullivan testimony I asked for, they sent me all of it. Interestingly, where GNSA shows "deletion", there is, indeed, a deletion, but it does not show as a deletion on the copy sent the GPO. Bugle! The FBI interview with him is "withheld from research"-no explanation. I'll now have to write and ask why, get a copy of the insertion. I'll send you letter. I also got front and back cover of letter to LEO by Pedro Charloet, FBI D-57, and, if you want, on Hunts 705:368;1066:503;1066:307 (CE1066); 1066:309 (CE1066); 1607 (Vol 3):834; 1613:2,12;1618:168-9.

I'll respond later and send you copy.

Sincerely,
